Services

Blood Pressure Checks

Free Blood Pressure screenings are available to the public at Fire Station 67 on a drop-in basis. As long as Fire personnel are not committed to a call, they will be able to provide a screening.

CPR Classes

The Orange City Fire Department offers American Heart Association certifications in both Heartsaver CPR/AED and Basic Life Support (BLS) CPR/AED. If you are interested in taking one of these classes, you must pre-register in person at 215 North Holly Ave. Orange City, FL 32763 (Station 67). Payment will be due in full at the time of registration. We only accept cash or check. Please make all checks payable to Orange City Fire Cadet Post 1890. If paying with cash, please bring exact change.

Cost:
Heartsaver CPR/AED – $25.00
BLS CPR/AED (this course is reserved for healthcare professionals only) – $10.00

Please call in advanced to confirm class dates and number of seats available, 386-775-5460.

Car Seat Installation and Inspections

The Orange City Fire Department offers assistance with car seat installation and inspections. If you’re in need of this service, you may drop by Station 67 (215 North Holly Ave, Orange City) or Station 33 (75 S Charles Richard Beall Blvd, Debary). As long as the station crew isn’t committed to a call, they will be happy to assist you.

Home Smoke Detector Program
The Orange City Fire Department provides assistance in checking smoke detectors and providing new smoke detectors for those who qualify. Initiate a request by calling 386-775-5460. Fire personnel are not able to install smoke detectors not provided by the Orange City Fire Department.

Fire Station Tours

Tours of Fire Station 67 are available to the public on an appointment only basis. If you are a school, daycare, or an interested resident, please call 386-775-5460 to schedule a tour.

Sharps Disposal Program

Residents of Orange City and DeBary may go to Station 67 (215 N. Holly Ave, Orange City) or Station 33 (75 S. Charles Richard Beall Blvd, DeBary) to pick up your initial sharps container.

1. After normal injections or blood test, dispose of sharps into the container. Do not clip or recap the needle.
2. Do not attempt to retrieve sharps after they have been placed in the container.
3. When the container is 75 % filled, use the locking mechanism on the lid to secure it. Place strips of adhesive tape across the top of box. Do not overfill the sharps box.
4. Return the sealed container to either fire station drop-off site, exchange it for a new one and repeat the process.

When making the exchange, always give the filled sharps box to authorized personnel. Never leave a sharps container unattended. The Sharps Disposal Program is only for residential use. No commercial containers will be accepted. ID is required for proof of address.
